

65 - Spline 15° angled offset-ring ratchets

Description:

- Spline profile 15° angled ratchet offset wrenches, specific for aeronautical fasteners.
- The fluted profile applies more torque with less effort through the larger contact surface at tightening.
- The contact points of a Spline wrench are always away from the nut angles. This limits wear on the nuts.
- The Spline profile offers broad versatility. It is compatible with the following types of fasteners: fluted (Spline), Torx, 4-, 6- and 12-points.
- Recess under the handle allows to pass fingers or an obstacle.
- Compact ratchet mechanism reversing by lever.
- 5° increments (6° for sizes 7, 8 and 9).
- Spline dimensions: from 7 to 36.
- Satin chrome finish.
